

# Inspiration

The old gentleman that we purchased our first Kaiser from sent us on a journey to visit "Toots" Borraz, the Manager of the PNW Region of the KFOCI at that time. After answering my 100th question about Kaiser-Frazer Automobiles, Toots offer to sell a foot high stack of KFOCI Quarterlies from his "Dead" Brother Joe for a minimal donation to the Club.

The words of wisdom given to me were - "The answers you seek are contained in these volumes."

Eagerly the donation was made and we went down the road studying this stack of old KFOCI Quarterlies. Reading through these old Quarterlies. At this time I got very interested in collecting K-F Magazine Advertisements. In the year 2000, Ray Tomb sent me the list of K-F Literature. This list contained over 1000 different K-F documents. None of them Magazine Ads - So I boxed the list.

As I never throw anything away related to Kaiser-Frazer, I came across this Ray Tomb List while preparing for the 2008 KFOCI National to be held in Salem Oregon. At this upcoming National Convention a little K-F Library will be available for review complete with Librarians. This list will be the basis for how I can organize all my none Magazine Advertisement K-F Documents for this event.

PS - Toots' Brother Joe was not actually dead - He just dropped from the Club and the KF world. Toots let this information slip in conversation after 10 years of snickering.
